Bradford B. Worrall, MD,  
MSc, FAAN  
*Associate Editors*

In the 6-month interval from October 1, 2012, through March 31, 2013, *Neurology*<sup>®</sup> received 2,242 new and 578 revised manuscripts, compared to 2,293 new and 695 revised manuscripts during the same period in 2011–2012. Peer reviews received during this period numbered 4,119 (as compared to 4,076 during the same period last year). The average time from submission to first decision for papers chosen for review decreased to 28.65 days compared to average time from submission to first decision of 33 days during this period last year. Since we can only accept a minority of the papers submitted, please help us by making specific comments in your reviews regarding uniqueness of study populations, novel methods, studies that are especially educational, or new strategies for diagnosing and treating neurologic disease. Specific comments are invaluable in helping us reach decisions regarding which articles we believe will most benefit our readers in their practices. We sincerely thank you for your detailed comments and for your dedication in returning reviews quickly.

The next generation of neurologists and researchers benefits greatly as a result of the feedback provided by reviewers of manuscripts considered for the Resident & Fellow Section of *Neurology*. It is the goal of this Section to help junior authors improve their clinical and scientific writing abilities and we especially appreciate the constructive feedback provided by reviewers.

See the *Information for Reviewers* link on the [www.neurology.org](http://www.neurology.org) Web site for guidance in reviewing. This document contains information on expectations of reviewers regarding confidentiality, timeliness, and reviewer conflicts of interest. It also provides instructions for formatting the comments to editors and authors to make communication with authors as effective as possible.

If you would like to do more reviews or if you have never reviewed for *Neurology* but are interested in doing so, please email us at [journal@neurology.org](mailto:journal@neurology.org), describing your credentials and expertise in the areas in which you are qualified to review.

Reviewers listed below with one asterisk have reviewed 5 or more papers. Two asterisks indicate that the reviewer has reviewed 10 or more manuscripts. This list includes those reviewers who returned a review or reviews of initial submissions (re-reviews of the same manuscript are not included) between October 1, 2012, and March 31, 2013.

## DISCLOSURE

Robert A. Gross, MD, PhD, FAAN, is supported for educational endeavors from the University of Rochester Medical Center's Clinical and Translational Science Award from the NIH. Since his appointment as Editor-in-Chief in 2009, Dr. Gross has ceased participation in industry-sponsored clinical trials and speakers' bureaus. He receives an honorarium from AAN as Editor-in-Chief of *Neurology*.

David S. Knopman, MD, served on a Data Safety Monitoring Board for Lilly (completed July 2012), and was an investigator for clinical trials sponsored by Baxter Pharmaceuticals, Elan Pharmaceuticals, and Forest Pharmaceuticals, all of which concluded in 2012. He served as a consultant to Allon Pharmaceuticals (honorarium paid to his institution) and to TauRx Pharmaceuticals (for which he received personal compensation). Dr. Knopman is supported by grants U01 AG 06786 (Mayo Alzheimer's Disease Patient Registry, RC Petersen PI), P50 AG 16574 (Mayo Alzheimer's Disease Research Center, RC Petersen PI), U01 AG 10483-7 (Alzheimer's Disease Cooperative Study, P Aisen PI), R01 AG 41851 (Imaging Biomarkers in Preclinical Alzheimer's disease, D Knopman, C Jack co-PIs), R01 AG11378-16 (Identifying Mechanisms of Dementia: Role for MRI in the Era of Molecular Imaging, C Jack PI), R01 HL96917 (The ARIC Neurocognitive Study, Thomas Mosley PI), R01 AG032306 (Frontotemporal Lobar Degeneration Neuroimaging Initiative, H Rosen PI), R01 AG037551 (Stroke and Cognitive Impairment in Aging Chronic Kidney Disease Patients, Anne Murray PI). He is Deputy Editor of *Neurology* for which he receives compensation from the AAN.

Gregory D. Cascino, MD, is supported by grant NS53998-03 (The Epilepsy Phenome/Genome Project). He receives an honorarium from the AAN as Associate Editor of *Neurology*.

John R. Corboy, MD, conducts research supported by the NIH, the National MS Society, Juvenile Diabetes Research Foundation, Immune Tolerance Network (NIAID), Genentech, Novartis, Eli Lilly, Bio-MS, Orasi, and Celgene Therapeutics, and has been a consultant for Celgene Therapeutics, Teva Neurosciences, and Novartis. Dr. Corboy has received honoraria for speaking from ProCE and the Rocky Mountain MS Center. He is a Section Editor for *Neurology Today* and receives an honorarium from the AAN as an Associate Editor of *Neurology* and Editor of *Neurology: Clinical Practice*.

Mitchell S. V. Elkind, MD, MS, FAAN, serves as a consultant to Bristol-Myers Squibb and Tethys Bioscience, Inc.; serves on an event adjudication committee for Jarvik Heart; serves on speakers' bureaus for Boehringer-Ingelheim, Inc., Bristol-Myers Squibb/Sanofi Pharmaceuticals Partnership, and Genentech; and receives research support from diaDexus, Inc., Bristol-Myers Squibb/Sanofi Pharmaceuticals Partnership, and the NIH/NINDS [R01 NS050724

(PI), NS048134 (PI), P50 NS049060 (Project PI), R37 NS029993 (Co-PI), R01 NS55809 (Co-I), and R01 NS062820 (Co-I)]; and has given expert testimony on behalf of Novartis (Zelnorm and stroke litigation) and GlaxoSmithKline (Avandia and stroke litigation). Dr. Elkind serves as Resident & Fellow Section Editor for *Neurology*, for which he receives compensation from the AAN.

Andrew G. Engel, MD, FAAN, receives research funding from the NIH. As an Associate Editor of *Neurology*, he receives an honorarium from the AAN.

Jonathan W. Mink, MD, PhD, receives research support from NIH/NINDS and the FDA. Dr. Mink serves on the Board of Scientific Counselors, NINDS. He receives a consulting fee from Edison Pharmaceuticals for service on a Data and Safety Monitoring Board. He is a consultant for Medtronic, Inc. Dr. Mink has received travel funding from the Tourette Syndrome Association. He is an Editorial Board Member for *Continuum*, *Pediatric Neurology*, and the *Journal of Child Neurology*. Dr. Mink has received honoraria from the Tourette Syndrome Association, and receives an honorarium as Associate Editor of *Neurology*.

Richard M. Ransohoff, MD, conducts research supported by the NIH, the National MS Society, the DOD, the Alzheimer's Association, the Guthy-Jackson Foundation, Williams Family Foundation for MS Research, ChemoCentryx, Lundbeck, Teva, Novartis, Genzyme, and Biogen-Idec. Dr. Ransohoff has received fees for preclinical consulting or honoraria for academic presentations from Amgen, Genentech, Roche, Novartis, Biogen-Idec, and Pfizer. He serves on Scientific Advisory, Medical Advisory, or Safety Monitoring Boards for ChemoCentryx, Vertex, and as an Associate Editor of *Neurology*, he receives an honorarium from the AAN.

Ryan J. Uitti, MD, FAAN, has received research funding from the NIH, Noscira, Inc., and Advanced Neuromodulation Systems, Inc. His institution has received annual royalties from the licensing of the technology related to PARK8/LRRK2 greater than the federal threshold for significant financial interest; Dr. Uitti has not received any royalties. Dr. Uitti receives an honorarium as Associate Editor of *Neurology*.

Bradford B. Worrall, MD, MSc, has received research funding from NIH (6 grants). He serves as an outcomes adjudicator for the NHLBI for AREDS2 and as an ad hoc reviewer for the NIH and Veterans Administration study sections. Dr. Worrall received several honoraria for serving as faculty and/or director for courses at the AAN annual meetings. Dr. Worrall is on the Editorial Boards of *Neurology* and *Seminars in Neurology*. Dr. Worrall received nominal royalties for serving as a Chapter Author for *Merritt's Neurology* and receives an honorarium as Associate Editor of *Neurology*.
