

Progranulin: Functions and neurologic correlations

Neurology® 2018;90:1127. doi:10.1212/WNL.0000000000005191

In the Clinical Implications of Neuroscience Research article “Progranulin: Functions and neurologic correlations” by R.A. Townley et al.,¹ there is an error in the legend for figure 2, which should have read “TFEB translocates to the nucleus and upregulates several genes” rather than “upregulates severe genes” as originally published. The editor regrets the error.

Genetic biomarkers for the risk of seizures in long QT syndrome

Neurology® 2018;90:1127. doi:10.1212/WNL.0000000000005659

In the article “Genetic biomarkers for the risk of seizures in long QT syndrome” by D.S. Auerbach et al.,¹ there is an error in figure 1, which should have listed (n = 137, 14.2%) for the participants with seizures in the LQTS⁺ genotype group, rather than 4.2% as originally published. The publisher regrets the error.
