

## Acute ischemic stroke thrombi have an outer shell that impairs fibrinolysis

*Neurology*® 2019;93:819. doi:10.1212/WNL.0000000000008538

In the article “Acute ischemic stroke thrombi have an outer shell that impairs fibrinolysis” by Di Meglio et al.,<sup>1</sup> first published online September 20, 2019, “n” under the “CE” group in figure 4C should have read (n = 51). The corrected version appears in the October 29 issue. The authors regret the error.
